

galla

Simple billing app for small restaurants.

Restaurant ka hisaab, ab phone pe.

Make bills on your Android phone. It keeps working even when the internet stops.

- ✓ Bill in three taps
- ✓ UPI QR with the exact amount
- ✓ GST bills, ready for your CA
- ✓ Works without internet
- ✓ Cash check every night

Free trial for your restaurant

WHY SWITCH

Still billing on paper?

A bill book and a calculator cost you time, money and sleep. Here is what changes with galla.

With a bill book	With galla
 Totals and GST added by hand. Mistakes happen.	 Totals and GST worked out for you.
 Customer waits while you type the UPI amount.	 UPI QR already has the exact amount.
 Kitchen loses slips or makes a dish twice.	 Kitchen slip shows only the new items.
 No idea if the cash drawer is short.	 Cash check every night: matches, short or extra.
 Discounts given without asking you.	 Discounts need your PIN, and stay on record.
 Month end: a bag of bills for your CA.	 GST reports exported in one tap.
 Bills get torn, lost or faded.	 Every bill saved on the phone, always.

All you need is an Android phone.

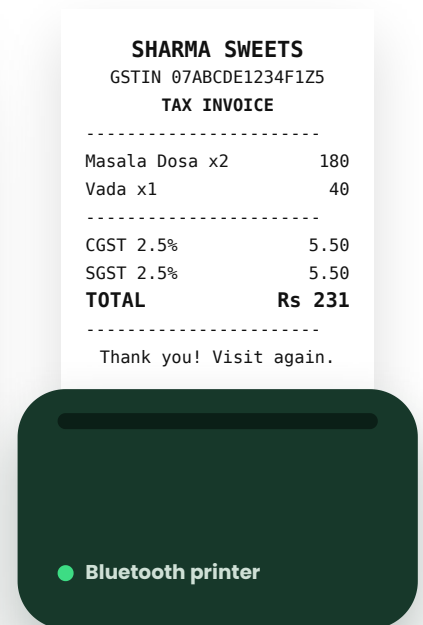

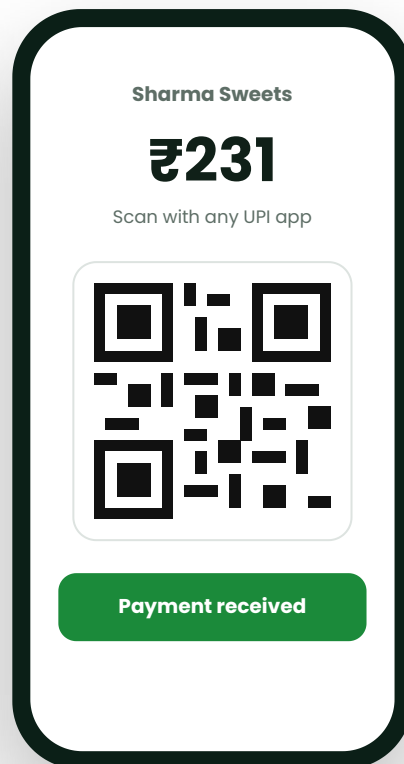

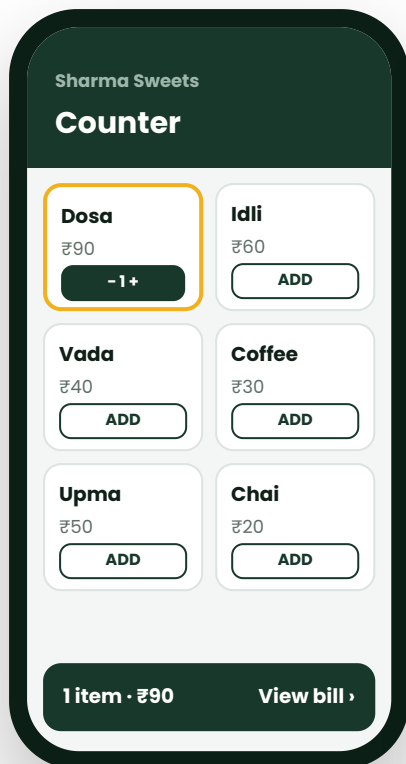

No computer. No billing machine. No internet needed.

HOW IT WORKS

A bill in three taps.

Your staff can learn galla in five minutes. No computer, no training classes.

- 1 Tap the dish**
Tap again to add more. Search if the menu is long.

- 2 Take payment**
Cash, card or UPI. The UPI QR already has the amount.

- 3 Print or WhatsApp**
A proper GST bill on a small printer, or sent to the customer.

Internet gone? Keep billing.

Every bill is saved on the phone itself. Nothing stops at rush hour.

From opening to closing.

Here is how a normal day at your counter looks with galla.

10:00 AM

Open the counter

Note the cash in the drawer. Each staff member logs in with their own PIN.

Enter your PIN

Ravi · Cashier

1:30 PM

Lunch rush

Counter, tables and Zomato or Swiggy orders, all in one place. Kitchen slips go out as orders come in.

T1

T2

T3

T4

T5

T6

4:00 PM

Pay the vegetable vendor

Note money taken from the drawer, so the night count still adds up.

Paid out

Vegetables ₹200

by Ravi · 4:02 PM

11:00 PM

Close the day

Count the cash. galla checks it. The day's report goes to the owner's phone.

Should be	₹14,345
Counted	₹14,345

✓ **Cash matches**

FEATURES

Everything your restaurant needs.

From the first order to the last rupee of the day, in one app.

Tables

See which tables are busy and each table's running bill.

Kitchen slips

Only new items go to the kitchen. No repeats, no missed orders.

UPI QR

The customer scans, the amount is already filled in.

GST bills

CGST and SGST worked out, with your GSTIN and FSSAI number.

Zomato and Swiggy

Bill delivery app orders in the same place as the counter.

Phone printing

Print from the phone to a small Bluetooth printer. No computer.

Staff PINs

Owner, manager and cashier, each with their own PIN.

Sales reports

Today, this week or this month, and your best-selling dishes.

Expenses

Money paid to vendors is noted, so the cash count is right.

More than one outlet

One owner can add more restaurants and switch between them.

You stay in control, even when you are away.

Discounts need your PIN

Staff can't give discounts or cancel bills on their own.

Everything on record

Who gave which discount, and why, is saved.

Report on WhatsApp

The day's sales and cash come to your phone.

PRINTED BILLS

Bills your customers trust.

Clean, proper bills with your shop's details on every one. Print them, or send them on WhatsApp.

+ Butter Naan x2	
+ Dal Makhani x1	

Note: less spicy	
Waiter: Ravi	

Kitchen slip (KOT)

Big, clear text. Only what the kitchen needs to make now.

No printer? No problem.

Send the bill to the customer on WhatsApp instead.

Small printer, big help

Works with common 58 mm Bluetooth receipt printers.

QUESTIONS

Questions owners ask us.

Do I need internet?

No. Billing works fully offline. Every bill is saved on the phone.

Do I need a printer?

No. You can send bills on WhatsApp. A 58 mm Bluetooth printer is optional.

Can my staff misuse it?

Each person has their own PIN and role. Discounts and cancelled bills need an owner or manager PIN.

I have two outlets. Can I use one app?

Yes. One owner can add more restaurants and switch between them.

Which phone do I need?

Any Android phone. No computer and no billing machine.

Can I change my menu and prices?

Yes, any time, right from the app. Changes show up at once.

What if I change my phone?

Make a backup file from the app and restore it on the new phone.

How do I start?

Message us. We set up your menu and you try galla free at your counter.

Your data is safe.

Stays on your phone

Your sales are not shared with anyone.

Locked with encryption

The data file can't be opened outside galla.

PIN for every person

Only your staff can open the app.

PLANS
